

Chelmsford College

# SKILLS BOOTCAMPS

FREE 8-week course

## Clean Energy Air Source Heat Pump Installer

1 day per week at Chelmsford College

**NEW** Start Dates 13 November

## YOUR FAST TRACK TO CLEAN ENERGY

**If you're looking to develop your existing trade skills in the renewable energy sector our Clean Energy ASHP Installer Skills Bootcamp provides a direct route into one of the UK's fastest-growing industries.**

**With the demand for Air Source Heat Pump (ASHP) installers increasing as the UK works towards Net Zero, this bootcamp will equip you with the practical skills, technical knowledge and industry-recognised qualifications employers are looking for.**

### What you will learn:

- WRAS Water Regulations
- Hot Water Systems and Safety (Unvented)
- Level 3 Low Temperature Heating and Hot Water Systems
- Level 3 Award in Installation and Maintenance of Air Source Heat Pumps

### Reasons to apply:

- FREE training for self-employed with required skill qualifications
- Training fees are charged to employers based on business size
- Gain industry-recognised qualifications
- Learn real skills for real jobs
- Connect to employers in a growing green energy and retrofit sector
- Must be over 19 and have the right to work in the UK

### Apply by emailing
