

Letter from the CEO, David Warnes

Thank you so much for your interest in joining the Board of Governors at Chelmsford College. We are a general Further Education college offering a variety of vocational and professional courses, apprenticeships, and specialist provision for those with special educational needs and disabilities.

Chelmsford College has two campuses, both within easy walking distance of each other. Our modern, up-to-date facilities and resources help students to learn new skills that can be transferred directly into jobs. Recent investment includes a new Built Environment and Sustainable Technologies Centre, a cyber security laboratory and an immersive digital suite.

The difference Chelmsford College can make for learners is in the connections: the lightbulb moments, gaining new skills, mastering crafts, meeting new people, networking with employers and being inspired. Our Board is fully committed to ensuring that the College supports learners to be the best they can be.

We have recently celebrated the 60th anniversary of the College and are pleased to share the timeline of its history here: [Chelmsford College | History](#)

Chelmsford College's Governing Body has 17 governors. Its members consist of volunteers who are drawn from the community, two staff and two student members from the College. The Governors offer experience from a wide range, including industry, civic, education, and the third sector. Independent members are appointed by the Governing Body and the Staff Governors are elected by the staff of the Group. The student Governors are elected by the students of the group.

A full role description has been prepared and is attached, more information can be found on our [website](#) or by contacting our Director of Governance, Ra Hamilton-Burns at Hamilton-Burnsr@chelmsford.ac.uk.

We look forward to discussing the role further and to answering any questions you may have.

David Warnes, CEO and Principal
