

Electrical Installations Work Based Tutor

Person Specification

Essential Criteria

Qualifications:

- Fully qualified electrician with a valid JIB Approved Gold Card.
- Recognised Assessor Qualification (e.g. TAQA, A1, D32/D33).

Experience:

- Minimum of two years' relevant industry experience in Electrical Installations.
- Experience of assessing learners in a work-based or educational setting.

Knowledge & Skills:

- Sound knowledge of Electrical Installation standards and current industry practices.
- Familiarity with apprenticeship standards and frameworks, including EAL and City & Guilds qualifications.
- Experience using e-portfolio systems, including SmartScreen.
- Ability to plan and deliver effective assessments and provide constructive feedback.
- Strong organisational and time management skills.
- Excellent communication and interpersonal skills, with the ability to build effective relationships with apprentices and employers.
- Competent IT skills, including Microsoft Office applications.

Other Requirements:

- Full UK driving licence and access to a vehicle (if required for workplace visits).
- Commitment to safeguarding, equality and diversity, and professional standards.

Desirable Criteria

Qualifications:

- Internal Quality Assurance (IQA) qualification (e.g. V1, TAQA Level 4).
- Teaching qualification (e.g. PGCE, Cert Ed, or equivalent).

Experience:

- Experience working within an apprenticeship training provider or further education setting.
- Experience preparing learners for End-Point Assessment (EPA).

Knowledge & Skills:

- Understanding of Ofsted requirements and education inspection frameworks.
- Awareness of funding rules and compliance requirements in apprenticeships.

Personal Attributes

- Motivated and learner-focused approach.
- Professional, reliable and adaptable.
- Ability to work independently and as part of a team.
- Commitment to continuous improvement and high standards.
