

Electrical Installations Apprenticeship Specialist

Salary: £46,642 per annum + £4,000 Market Rate Supplement + £4,000 Annual Apprenticeship Achievement Bonus

Potential Earnings: Up to £54,642 per annum

Location: Princes Road Campus, Chelmsford

Contract: Full Time, Permanent

Shape the Future of Electrical Education

We are seeking experienced and industry-qualified electrical professionals to join our growing team as **Electrical Installations Apprenticeship Specialists**. This is an exciting opportunity to play a key role in delivering outstanding apprenticeship and full-time electrical provision, helping to develop the next generation of electricians while supporting employer partners across the region.

In this role, you will combine your extensive industry knowledge with high-quality teaching, assessment and learner support to ensure exceptional outcomes for apprentices and students.

What You'll Do

- Deliver high-quality teaching, learning and assessment across Electrical Installation Full Time Study Programmes and/or Apprenticeships.
- Assess learner competence in both workshop and workplace environments.
- Support Apprentices to successfully achieve End Point Assessment and qualification outcomes.
- Build strong relationships with employers and industry partners.
- Contribute to curriculum development, industry engagement and quality improvement activities.
- Maintain accurate learner progress records and meet awarding organisation requirements.
- Act as a role model for professional standards, health and safety, and industry best practice.

Essential Requirements

Applicants must hold:

- JIB Approved Electrician status.
- NVQ Level 3 in Electrotechnical Systems and Equipment.
- AM2 qualification.
- Assessor Qualification (A1, D32/33, CAVA or equivalent).
- IQA Qualification (or willingness to achieve within an agreed timeframe if not currently held).
- Recent and relevant industrial experience within the electrical sector.
- A passion for developing future talent and supporting learner success.

What We Offer

- Competitive salary package of up to **£54,642 per annum**.
- Opportunity to work within a highly respected and expanding, forward thinking Electrical Installation provision.
- Modern facilities and industry-standard equipment.
- Generous annual leave entitlement.
- Membership of the Teachers' Pension Scheme.
- Ongoing professional development and industry updating opportunities.
- A supportive and ambitious team committed to learner success.

About You

You will be a highly skilled electrical professional with the credibility and expertise to inspire apprentices, students and employers alike. Whether you currently work in education or are looking to bring your industry experience into training and development, we would welcome your application.

You will share our commitment to excellence, innovation and ensuring every learner develops the skills, behaviours and confidence required to succeed in the electrical industry.
